

Receive a \$ 1,500.00 Tax Credit when you install a new Harvey Metal Roof System on your home!

Drexel Metal Roof Systems supplied by Harvey Building Products are ENERGY STAR® Approved!

As part of the American Recovery and Reinvestment Act of 2009, the \$500 lifetime tax credit cap for materials has been replaced with an aggregate cap of \$1,500 (valid until 12-31-10).

The process is simple:

1. At project completion ask your contractor for Drexel's "Certification of Eligible Building Envelope Component Form", complete and submit to your contractor for validation.
2. Once validated by Drexel and returned to you by your contractor, take the completed form to your accountant when you have your taxes done.
3. Tax credit of up to \$ 1,500.00 will be applied.
4. Enjoy your new Harvey Metal Roof!

Contact your installation contractor for more information.
